

DOCUMENTATION

How to change content on your front-page:

1. Under Pages, select all Pages and then select “**Front Page**”.
2. Here you can change your Hero Background Image, Hero Heading, Hero Subheading, Hero Button Text and Link, USPs Background Image, Latest Dog Title, Success Story Title, Stories Background Image, Contact Title and you can change short code for Contact Form 7. Here is a image on how it looks like:

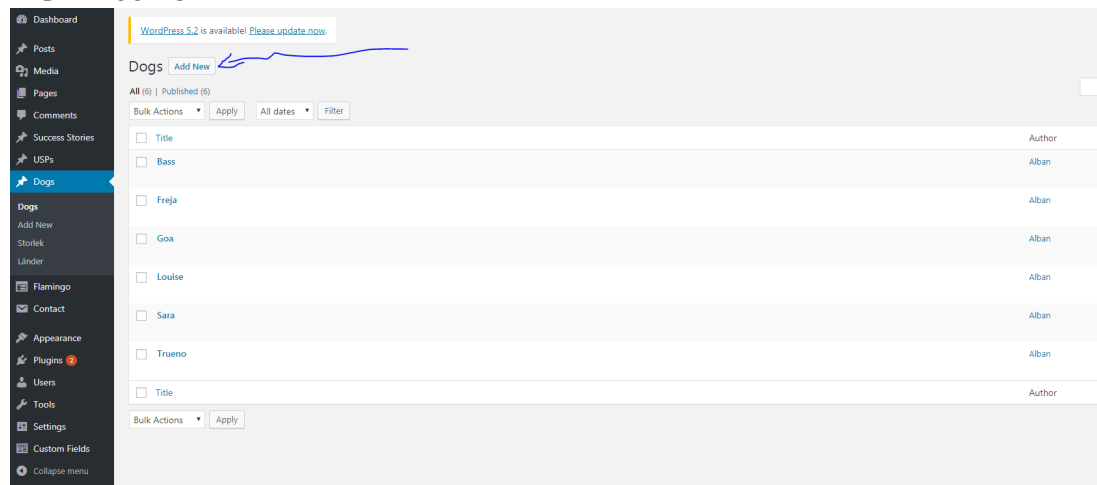

3. When you do a change here example if you edit “**Hero Heading**” then you need to press on the Update button on the upper right corner.

How to add/edit a Dog Post:

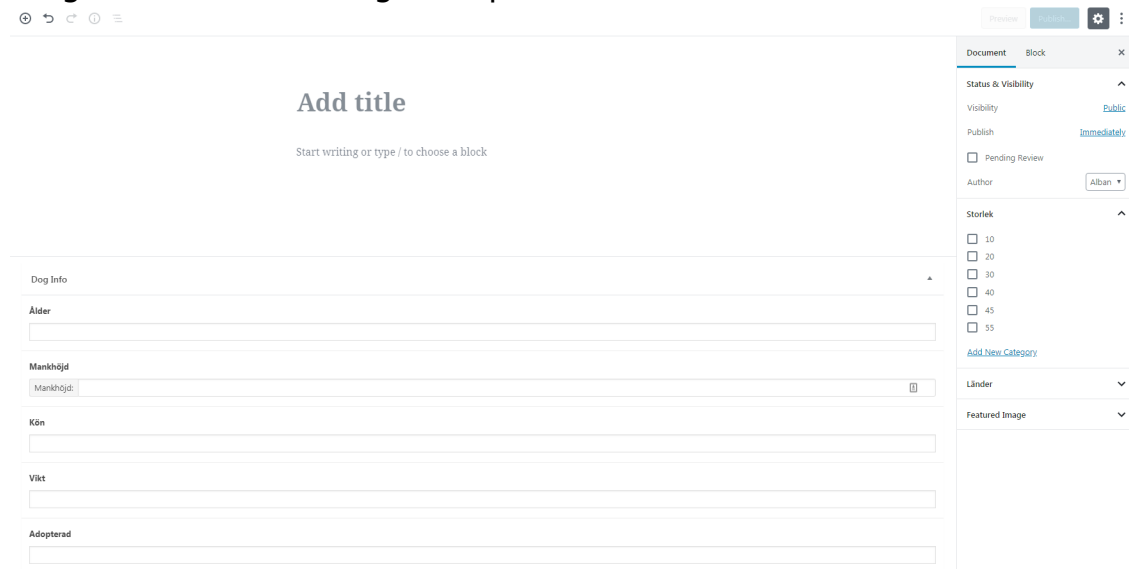

1. In the Dashboard there is an option named “**Dogs**”, go ahead and select that option.

2. Now here you will see all your created which you can also edit if you click on one of them. But if you want to add a new Dog then you have to press on “**Add New**” button.

3. A create post page will be shown here, from here you can set dog name, content and a image for the post through this editor.

4. If you scroll more down you will see a “**Dog Info**” and there you can enter the data for the dog such as which sizes the dog belongs to, where to find him, weight, sex and if the dog is adopted or not.

5. When you have entered all the dog info don't forget to press on “**Publish**” button on the upper right corner.

How to add a Taxonomy:

1. On the “Dogs” option you will also see two other options which is “Sizes” and “Countries”.
2. Click one of them and inside that page you can create your own option for example if you want to add a size you can just enter it there and that size will be shown on as an option on when you create a new dog post.
